FREE-STANDING STOVE

ENERGY CLASS

## BASIC INFORMATION ABOUT THE PRODUCT

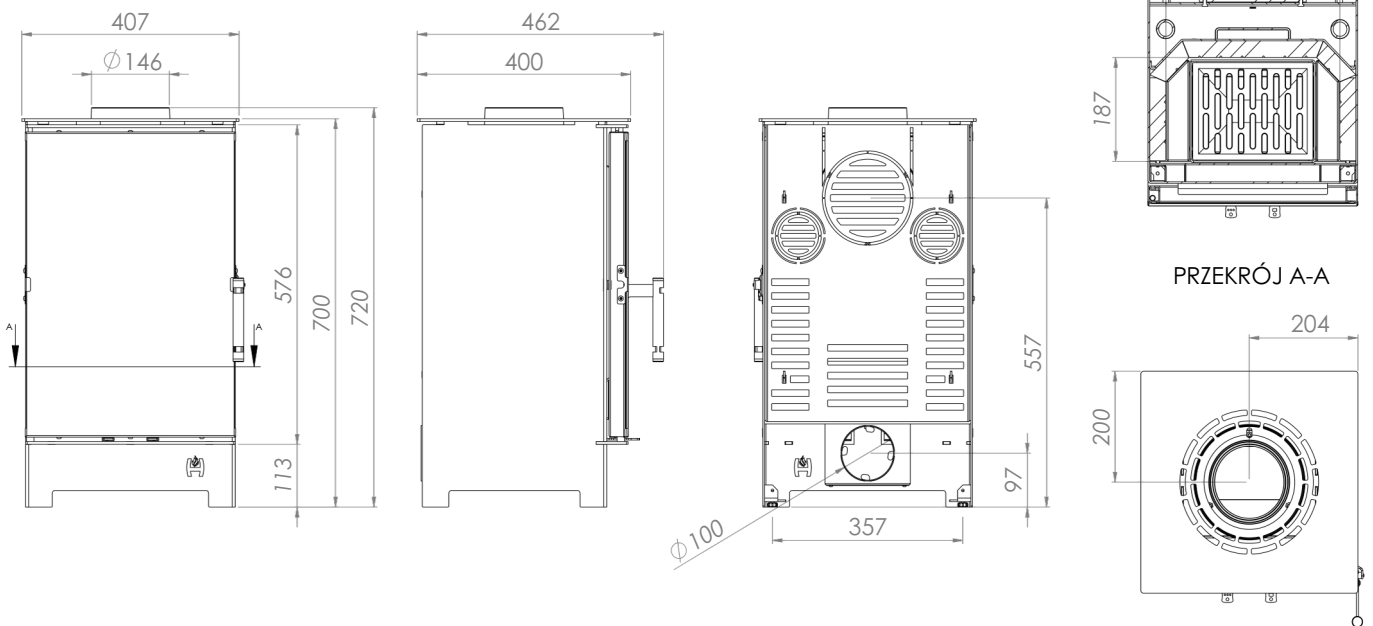

- Modern, compact goat-type design, ideal as an additional source of heat and decoration.
- Possibility of installation in open spaces and wall recesses.
- High wood burning efficiency, offering profitability and eco-friendliness.
- Covered with high-temperature paint for protection and aesthetics.
- Air curtain at the windscreen and secondary air vents on the rear wall.
- Three-stage aeration and two dampers to regulate the air supply.
- Movable cast iron grate with ash pan for easy ash removal.
- External cold air intake for compatibility with mechanical ventilation.
- Decorated DECOR fireplace ceramics and polished fireplace glass with an air curtain resistant to 800°C.

Nominal power [kW]	Heating	6,5
load range [kW]	Thermal	3-8,5
efficiency [%]	CO emissions (at 13% O2) [g/m3]	83
Pollen emission [g/m3]	Average fuel consumption [kg/h]	0,038
Flue diameter [mm]	Glass	1,080
Inlet diameter [mm]		1,9
Weight [kg]	Efficiency factor	390x540
		150
		100
		84
		111,4
